Abstract

In this paper, the guidelines for preparing papers for Himalayan Journal of Applied Science and Engineering (HiJASE). This document is a template for writing manuscript using Microsoft Word, otherwise, as an instruction set. All symbols used in the abstract should be well define. Do not cite references in the abstract. Do not delete the blank line immediately above the abstract. Don't use all caps for research paper title. Your abstract should give readers a brief summary of your article. It should concisely describe the contents of your article, and include key terms. It should be informative, accessible and not only indicate the general scope of the article but also state the main results obtained and conclusions drawn. The abstract should be complete in itself; it should not contain undefined abbreviations and no table numbers, figure numbers, references or equations should be referred to. It should be suitable for direct inclusion in abstracting services and should not normally be more than 250 words.
